Allowable Subject Matter

1. Claims 1, 3, and 5-11 are allowed.
2. The following is an Examiner's statement of reasons for allowance:

The prior art of record or made of record, taken alone or in combination do not disclose and/or suggest the limitation as recited in independent claims 1, 5, and 6, at least, as:

“...displaying simultaneously the analyzed structure relationship of function block definitions and the analyzed structure relationship of function block instances on the same display screen causing an instance display device to display a selected function block definition or a selected function block instance together with said structure relationship of the analyzed structure relationship of said function block definition and said structure relationship of the analyzed structure relationship of said function block instance; and causing a display judging device to cause said structure display device to display with an emphasis the structure relationship of said selected function block definition or selected function block instance or a corresponding portion of the structure relationship of the function block instance; wherein, when a function block included in said selected function block instance displayed by said instance display device is selected, said display judging device causes said structure display device to display with an emphasis said function block in the structure relationship of said selected function block instance; and wherein, when a function block included in said selected function block definition displayed by

Art Unit: 2192

said instance display device is selected, said display judging device causes said structure display device to display with an emphasis said function block in the structure relationship of said selected function block definition.”, which best described on Fig. 7 of Applicant's specification and further as reflect in Applicant's arguments (*See Pre-Appeal Brief(dated 4/12/2010), page 2, ¶2-4.*).

The limitation as indications above are not presented in the prior art and would not have been obvious; thus, claims 1, 3, and 5-11 are in condition for allowance.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.
